

<i>HD PE WAX Flake 120F</i>	
Appearance	white and dry flake
Flash point	> 190 °C
penetration	< 4
volatile	≤1
Softening point	≥105 °C
Density	0.92-0.93
Viscosity (120°C)	≤30 Cp

Description:

with low viscosity, high softening point. Good hardness, non-toxic, good thermal stability, low volatility at high temperature

application:

Hot Melt Adhesive, Color/Filler Masterbatch, PVC products industry, Cable filler compound, Rubber, Printing Ink, Paint & Coating
